PHP 1 Nested If

```
<h2>Nested If</h2>
    <p>You can have if statements inside if statements, this is called
nested if statements.</p>
    <?php
$a = 13;

if ($a > 10) {
    echo "Above 10";
    if ($a > 20) {
        echo " and also above 20";
    } else {
        echo " but not above 20";
    }
}
?>
```

Nested If

You can have if statements inside if statements, this is called nested if statements.

Above 10 but not above 20
