CREATE DATABASE Example

The following SQL statement creates a database called "pttc_testDB":

Example 1

```
CREATE DATABASE pttc_testDB;
```

Tip: Make sure you have admin privilege before creating any database. Once a database is created, you can check it in the list of databases with the following SQL command: `SHOW DATABASES`;

```
SHOW DATABASES;
```

DROP DATABASE Example

The DROP DATABASE statement is used to drop an existing SQL database.

The following SQL statement drops the existing database "pttc_testDB":

Example 1

```
DROP DATABASE pttc_testDB;
```
